ACADEMIC PROJECTS

Airbnb Clone (Tools: HTML, CSS, Javascript, NodeJs, ExpressJs, MongoDB)

Sep 2023 - Oct 2023	🔖	I built an Airbnb clone website using a full-stack approach, utilizing Node.js and Express.js for the backend, MongoDB as the database, and HTML with CSS for the frontend. This project includes full CRUD functionality and user authentication. Data is exchanged in JSON format for seamless communication between the server and the client

College Website Clone (Tools: HTML, CSS, Javascript)

Aug 2023	🔖	This project recreates the classic memory game where users follow an increasingly complex sequence of lights and sounds, enhancing their memory and concentration skills. The game features intuitive controls and engaging animations .
